

Dear Sir or Madam

In reference to Sattelite radio and NAB's petition 04-160 We (my family and I) respecfully ask that you reject the petition .

Traffic and Weather are not only a public service but very important to my and my wifes line of work as we are on the road and depend on the information that we recieve from XM Sattelite to help us .It is not only very convenient but it is a great safety help.

Thank You
Barry and Dianna Cochran
